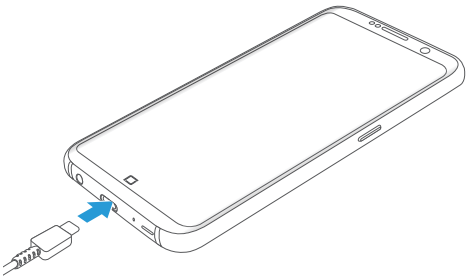
Steps to phone setup

Charge up

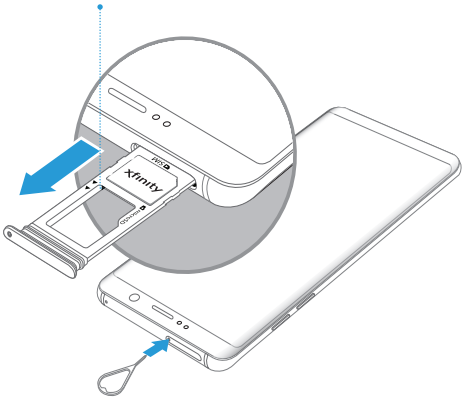
To charge your phone, first connect the Adaptive Fast Charger to the USB cable, and connect the USB to your phone. Then plug the Adaptive Fast Charger into an outlet. Keep your phone plugged in until it reaches 100% battery.



WARNING: Use only Samsung-approved charging devices. Samsung accessories are designed to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

Activate!
Before you turn on your phone, activate your service. On another device, go to **xfinitymobile.com/activate**. Log in and you'll be walked through the process.

microSD/SIM card tray
If you have a microSD card, insert it here:

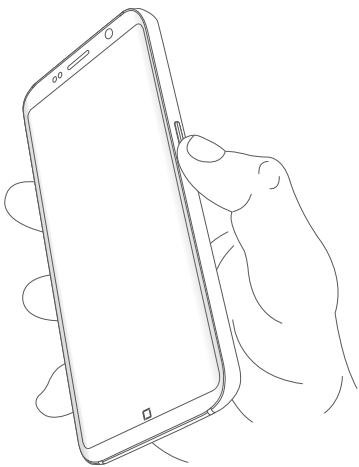


NOTE: To access the microSD card slot, remove the microSD/SIM card tray from the device.

The how-to basics

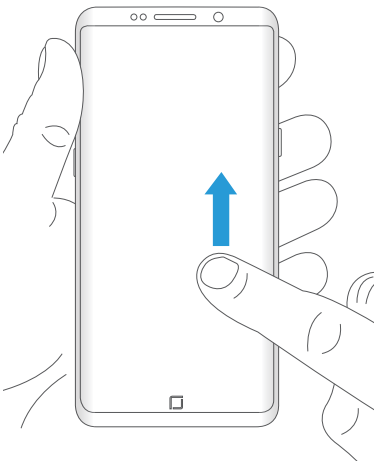
Powering on and off

To turn your phone on, press and hold the **Power/Lock** button. Once it's on, press and hold that same button to power it off.



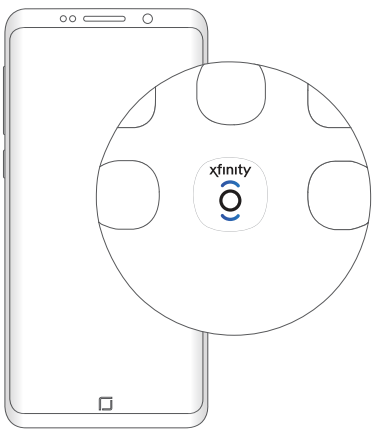
The screen basics

To turn on your screen, press the **Power/Lock** button, then swipe up onscreen to unlock it. To turn your screen off, just press the **Power/Lock** button.



Using the Xfinity Mobile app

The Xfinity Mobile app is preloaded on your phone. Consider it your control center to track your usage, manage your account, and ask us anything.



Voicemail 101

Listen to your messages or read them as text. You can also record a custom voicemail greeting.
